John Shenot
Policy Advisory
Commissioners' Office
Public Service Commission of Wisconsin
P.O. Box 7854
Madison, WI 53707-7854RE: Investigation on the Commission's Own Motion Regarding Advanced Renewable
Tariff Developments, Docket No. 5-EI-148.

Dear Mr. Shenot:

We represent Dairyland Power Cooperative ("Dairyland") in connection with the above-referenced docket opened to examine whether and how to expand the availability of advanced renewable tariffs in Wisconsin.

Dairyland is a not-for-profit generation and transmission cooperative serving approximately 575,000 end-users of electricity in four Midwestern states via its member distribution cooperatives and municipal wholesale customers. According to the December 3, 2008 Public Service Commission of Wisconsin Memorandum in Docket No. 5-GF-173, 2004-2006 average retail sales for the Dairyland system of 2,898,915 MWh represented 4.2% of the state average retail sales. The Dairyland system's 209,832 MWh of 2007 renewable energy represented 7.6% of the state total. This is a clear indication that Dairyland's approach to renewable energy is working.

Dairyland appreciates the opportunity afforded to submit comments in this docket, but at this time Dairyland intends to monitor this docket. Dairyland requests that the following persons be included for Dairyland on the service list or distribution list to be developed for this docket:

John Shenot
